U.S. Department of Energy
Yucca Mountain Site Characterization Office
P.O. Box 30307 M/S 025
Morht Las Vegas, NV 89036-0307

Now, more than ever, we must be vigilant about hazardous materials! the production and transportation of nuclear waste has always been dangerous. Now it is more so! I urge the Department of Energy to abandon the Yucca Mountain Project. In the absence of a Final Environmental Impact Statement, a Nuclear Regulatory Commission review, and a detailed proposal for transporting nuclear waste to Nevada, the Department of Energy lacks a basis for consideration of site suitability. The public cannot have confidence in any recommendation that arises from such a dramatically flawed process. Again, I urge you to abandon the Yucca Mountain Project.
